Steady-state plasma $D_7$ glucose enrichments during PINTA
A) Plasma enrichments of $D_7$-glucose in healthy volunteers (n=15) after a 12-h and a 60-h fast.
B) Plasma enrichments of $D_7$-glucose in a subgroup of healthy volunteers (n=9) after a 60-h fast and a 60-h fast with alanine supplementation.
Steady-state plasma $[^{13}\text{C}_1]\text{ lactate}$ enrichments during PINTA
A) Plasma enrichments of $[^{13}\text{C}_1]\text{ lactate}$ in healthy volunteers ($n=15$) after a 12-h and a 60-h fast.
B) Plasma enrichments of $[^{13}\text{C}_1]\text{ lactate}$ in a subgroup of healthy volunteers ($n=9$) after a 60-h and a 60-h fast with alanine supplementation.
Steady-state plasma $[^{13}\text{C}_4]\beta$-OHB enrichments during PINTA
A) Plasma enrichments of $[^{13}\text{C}_4]\beta$-OHB in healthy volunteers (n=15) after a 12-h and a 60-h fast.
B) Plasma enrichments of $[^{13}\text{C}_4]\beta$-OHB in a subgroup of healthy volunteers (n=9) after a 60-h and a 60-h fast with alanine supplementation.
