Supplemental Figure legend

Supplemental Figure 1. Early glucagon+ cells in the ectopic pancreatic bud of 
Hes1<sup>−/−</sup>; Ptf1a<sup>cre/WT</sup>; ROSA26r mice

The evaginated cells include Ptf1a-lineage-labeled cells and Ptf1a-lineage-negative 
early glucagon+ cells in the ectopic pancreatic bud in the distal stomach of Hes1<sup>−/−</sup>;  
Ptf1a<sup>cre/WT</sup>; ROSA26r mice at e11.5. St, stomach. Scale bars: 50 µm.
