Corrigendum

Loss of PIP5K1γ, unlike other PIP5KI isoforms, impairs the integrity of the membrane cytoskeleton in murine megakaryocytes

During the preparation of the manuscript, Yasunori Kanaho’s name was inadvertently omitted from the author list. The correct author list appears above, and Kanaho’s affiliation information appears below.

Department of Physiological Chemistry, Graduate School of Comprehensive Human Sciences and Institute of Basic Medical Sciences, University of Tsukuba, Tsukuba, Japan.

The authors regret the error.

Corrigendum

Targeting tumor-associated fibroblasts improves cancer chemotherapy by increasing intratumoral drug uptake

Markus Loeffler, Jörg A. Krüger, Andreas G. Niethammer, and Ralph A. Reisfeld

In Acknowledgments, the Department of Defense grant to R.A. Reisfeld was cited incorrectly. The correct grant number is BCO50141.

The authors regret the error.

Endocrine functions of bone in mineral metabolism regulation

L. Darryl Quarles

After acceptance of this JCI Science in Medicine article for publication, 3 distinct mutations in NHERF1 were reported in 7 patients with renal phosphate loss and nephrolithiasis and/or bone demineralization (Karim, Z., et al. 2008. NHERF1 mutations and responsiveness of renal parathyroid hormone. N. Engl. J. Med. 359:1128–1135).
